NEARING COMPLETION!
OFFSHORE YACHTS

THE OFFSHORE CE 70
A NEW ERA OF QUIET CONFIDENCE

This CE 70 embodies innovation, luxury, and exceptional seakeeping. Every line, surface, and system reflects Offshore's unwavering commitment to comfort, performance, and timeless style. For the discerning yachtsman, the CE 70 is more than a new model—it is a new benchmark and a natural evolution of everything Offshore owners have always valued.

For decades, Offshore Yachts has earned its reputation for delivering the "Softest Ride on the Water" through thoughtful engineering, robust construction, and a relentless focus on real-world performance. With more than 300 yachts built—and model lifecycles often exceeding 20 years—Offshore vessels remain desirable, relevant, and highly valued long after launch. That longevity is no accident; it is the result of purposeful design centered on the owner experience.

This CE 70 builds on that legacy with a clear objective: expand capability and modern versatility while preserving unmistakable Offshore DNA. The result is a yacht that feels instantly familiar yet unmistakably new—an Offshore through and through, elevated for the next generation of cruising.

OFFSHORE

OFFSHORE DNA REIMAGINED

Modern Evolution of a Proven Classic
The CE 70 carries forward Offshore's updated classic styling, blending familiar proportions with a refined contemporary interpretation. Her profile is purposeful, elegant, and designed to remain admired for decades.

Legendary Seakeeping, Elevated
Built on Offshore's renowned hull form, she delivers the quiet confidence owners expect. Her fine entry slices through waves with ease, offering a ride that is not a departure—but a refined evolution—of Offshore's celebrated performance heritage.

True Walkaround Decks
Full walkaround side decks provide safe, intuitive movement from bow to stern. With only a single step around the perimeter, accessibility and practicality are seamlessly integrated into the design.

Advanced Construction
Modern multiaxial FRP materials and advanced lamination techniques reduce displacement while preserving Offshore's hallmark strength. The result is a yacht that is lighter, more efficient, and exceptionally seaworthy.

Built to Last—In Every Sense
From structural integrity to interior craftsmanship, the CE 70 reflects Offshore's enduring commitment to quality. Warm finishes, precise joinery, and refined detailing create an environment that impresses both loyalists and newcomers alike.

LIVING AREAS
DESIGNED FOR HOW YOU CRUISE AND ENTERTAIN

Expansive Salon
A spacious sofa, hi-lo table, and integrated television form a welcoming interior for movie nights, conversation, or quiet mornings at anchor.

Open-Concept Galley
The aft galley layout keeps the chef connected to guests, creating a social environment designed for real living, not just meal preparation.

Lower Helm with Social Connection
The redesigned helm offers outstanding visibility and a contemporary aesthetic. A comfortable settee and table transform the pilothouse into an inviting companion space for guests underway.

Seamless Main Deck Flow
With minimal visual barriers from aft deck to helm, the main deck feels open, connected, and remarkably spacious.

Master Cabin
An impressive space that delivers exceptional accommodation in this size range—featuring a full-size king bed, his and her heads, and comfortable settee.

Crew or Guest Cabin
A private cabin with head can serve as captain's quarters, guest space, utility room, or a combination—flexibility experienced owners appreciate.

Aft Deck for Gathering
A generous dining table seats up to ten, surrounded by deep, comfortable seating—an outdoor salon ideal for sunset cocktails, long dinners, and effortless entertaining.

Flybridge
The flybridge and upper aft deck create a seamless open-air retreat, with twin 8' settees , electric hi-low dining tables, sectional lounges and two Stidd helm chairs blending command with comfort. A built-in BBQ, sink and refrigerator set the stage for effortless entertaining—from casual lunches to sunset cocktails. Protected by a sleek hard top and sail cover, these elevated gathering spaces transition effortlessly between sun and shade while keeping every guest at the center of the experience.

Turnkey Luxury
Offshore's in-house design team curates every detail—from textiles and upholstery to tableware and décor—so the yacht arrives cohesive, fully appointed, and ready to cruise from day one.

OFFSHORE

CE 70 HULL DESIGN

- The soft, predictably smooth ride continues. The more vertical bow produces an even deeper V section that assures an even softer ride. The longer waterline (WL) by virtue of the more vertical bow provides a thinner angle of entry producing a steady ride with less tendency to accelerate and decelerate (less pitching effect) as it enters a wave.
- She has a more classic hull forward and more modern aft.
- The longer WL due to the more plumb bow design provides better efficiency and lower fuel consumption at all speeds.
- Her hard double chine hull is more powerful at the bow and assures stability and a dryer ride underway with no hull noise or slap at anchor or in a marina because it does not cross the water line save for the lower chine and at the very forward bow.
- Her aft sections are flatter to gain more efficiency at higher speeds as well as to contain draft to a minimum. This draft allows for cruising in more remote, less crowded spots.
- Her prop tunnels are extremely soft and she has good control in following seas with a skeg/short keel that has been well tested.

CE 70 SPECIFICATIONS

- Length Over All (LOA): 75'
- Designed Waterline Length: 65'
- Beam: 19' 6"
- Draft: 4' 6"
- Full Load Displacement: 108,050 lbs.
- Fuel Capacity: 1,640 gallons
- Water Capacity: 400 gallons
- Holding Tanks: 210 gallons
- Generator: 20 kw Northern Lights
- Engines: Twin MAN i6 850hp
